

Dear Commissioners of the FCC: As a concerned citizen of the state of Indiana, I wanted to speak out against proceeding 02-278. I am extremely satisfied with our State's Do Not Call Law. I can say with the utmost confidence that the effectiveness of the law in our state will be diminished with preemption from federal law. I along with I dare say most other Citizens of the State of Indiana, do not want OUR law preempted. Please do not listen to the special interests who want only to have their interests benefit from a federal law. The country is made up of individual citizens, please listen to them before the corporate conglomerates as we will be the ones most effected by the preemption of the law of the great state of Indiana.
